Hi Kirk,

We already issued comments on the sampling plan. Our conversation with Timmerly indicated several would be resolved by the revised BRA memo. However, we need an official RTC before we can move forward on the Work Plan.

Sincerely,

Rob – your cover letter (last paragraph pg 1) states there are unresolved comments with the sampling plan, yet the comments themselves seem limited to the HHRA tech memo. Perhaps additional content was intended to append to your comment letter.

Prashant,

I hope you are well. Please find the attached correspondence approving the LCP OU2 Baseline Risk Assessment Memo. As stated in the approval, the comments can be addressed during the submittal of the full HHBRA in the Remedial Investigation. In addition, EPA requests responses to our comments on the Surface Soil Sampling Work Plan within 30 days or sooner, if possible.

Sincerely,
